

# CHICANO ANGEL HECHICERO

## BAND STORY

"Chicano Angel/Hechicero is the alter ego of San Antonio, Tx based songwriter/producer Frank Solis. After being raised up on the tough side of life, he discovered that he has a gift with words and music. Frank lacking any formal music training, has the ability to compose and produce music. You might say that he is a "sorcerer of words" in the sense that he mixes words with music to spread the magic of love. Chicano blood is his latest studio project consisting of 12 Cd music tracks, in a "hot sexy house style" with which he also mixes in sensuous Latin beats, and in a few songs, rock style guitar licks. Music can make you cry, or it can make you smile. It rides the waves of sound, and literally carries you away to a different place. A place that will always belong only to you, and to those whom you allow to enter your sacred space. Music can make lovers hearts soar like birds in flight. And take captive the hearts of all who are follow the ways of love. Why is music so magical? Because only music can play the strings of the human heart, and transport a persons wishes and desires, into the magical world of love!
