

# Clarck \*\*\*\*

## BAND STORY

"Clarck \*\*\*\* (real name Diego Rodrigues) is a brand new talent who has his own way of doing things thus providing the artist with his very own sound. Eventhough Clarck \*\*\*\* is a new kid on the block he has released several tracks as his Hardcore/Industrial alter ego Deester. Clarck \*\*\*\* started producing in 1996. Prior to that he was already a DJ and fascinated about electronic music. In 2001 Clarck got his first track released as his hardcore/industrial alter-ego Deester. Meanwhile Clarck continued experimenting with new beats, dope raps and fresh tunes. On the 20th of October 2007 Clarck \*\*\*\* attended the D3 (DJ/Producer) Seminar in Amsterdam. This was a good opportunity to get some feedback on his experiments. At the end of the day he got the feedback he hoped for giving the artist an enormous momentum and providing great motivation to carry on with his work."
