

Crucial

BAND STORY

"Playing all original music, Crucial, a five piece musical act out of the Philadelphia area, has developed a truly unique sound that blends a core of reggae with all different musical styles. Performing for the first time in November of 2003, Crucial instantly made a large impact in the Philadelphia tri-state region and quickly began headlining all the major venues in the area, as well as sharing the stage with many premier acts, such as The Wailers, Israel Vibration, & Sizzla. For the past five years, Crucial has been establishing a reputation as a ground breaking musical unit. Although reggae is the band's original love, Crucial thoroughly enjoys experimenting with all different forms of music, especially in a live setting. With the goal of exploration and transcending musical boundaries, Crucial creates a truly original sound and mesmerizing live performance. Crucial will be on tour this spring and summer in support of their debut album, Shadow Stampede, which was released in December of 2007. This album was recorded and mixed over two years and captures an important period in the band's history. "
