

Mark Hvilsted

BAND STORY

"Mark Hvilsted is a singer/songwriter from Denmark with a passion for pop music. Having taught himself to play the guitar and keyboard at age 12, he later learnt to play the saxophone and started writing songs. Drawn towards catchy tunes that make the listener hum along and tap their feet to the music, it was only a matter of time before Mark decided to sideline his R&B and jazz projects to concentrate on creating catchy pop tunes of his own, which has led to a collection of over 500 songs. This led to playing small shows in and around his home city of Copenhagen, which in turn has led to the recording of his first studio album. Already his first single *Game On*, is enjoying minor success in Canada and is being played regularly on Canadian college and Indie radio stations. Mark's varied influences make it impossible to describe his signature sound. The track *All I Got* for example is reminiscent of the Rolling Stones. Other tracks *Jaded* and *Out Of Nowhere* are reminiscent of Greenday and Charlie Parker, respectively. Whether it be a happy pop song, a hard and fast pop rock song or a sweet ballad, all Mark's tunes have the common thread of compelling the listener to tap their toes and sing along by the first chorus. The album, *When Right In Bloom*, released by Juicyhalfone Records, was recorded at Ventura Studios in Copenhagen with some of the best Scandinavian musicians like Jan Lysdahl, Gustaf Ljunggren, Rune Kjeldsen and Ole Kibsgaard. *When Right In Bloom* is due for release in 2009 "

Back In The Studio

Its taken a while but finally, today we're in the studio with ADL recording the rap for This Aint Love. Hopefully this is the final time and we can get on with taking the photos for the single and planning the video clip.

Also been getting some excellent feedback from TAXI who are particularly loving A Fool For You and are really enthusiastic about the rest of the music, and at the moment we're in negotiations with an american label for distribution and promotion in the US and Canada, so after a little lull, seems everythings moving ahead again.
