

Michael Jameson

BAND STORY

"Bursting on the scene from seemingly out of nowhere, Michael Jameson has distilled and fine tuned a level of funk/fusion that is utterly infectious and will no doubt get your groove-thing pulsing to the powerful rhythmic tidal wave that envelops his sound. A masterful studio artist, who has been churning up through the NYC back alleys with his tightly woven new band, is getting a soulful response from mixed audiences everywhere who just love to let it rip and dance the night away. Summer Love evokes the feel of a sunny afternoon in Greenwich Village, in the park, people of all shades of the rainbow mingling and glistening in the sweet summer sweat. Love and friendship in the air and a good vibe is felt by all. "
