

Miles Beyond

BAND STORY

"Who is Miles Beyond? Miles Beyond is a Hard Rock/Heavy Metal band formed in October of 2002. Tim Moody's powerful vocals shine through the darkness of today's music. The energetic guitar duo of Tim Moody and Paulo break the boundaries of traditional metal music, reshaping guitar playing for the new millennium. The thunderous rhythm section of Shawn Ramsey (bass) and Tod Fisher (drums) anchors the melodic guitar driven sound of Miles Beyond. History Miles Beyond has shared the stage in both the U.S. and Europe with major international acts including Gamma Ray, Motley Crue, Iced Earth, W.A.S.P., Danzig, Metal Church, Blitzkrieg and Girlschool. During the 2006 European tour, Miles Beyond played the Headbangers Open Air festival near Hamburg, Germany . They were the only band called on to play multiple encores during the three day festival. Afterwards, they quickly received the following comments: Miles Beyond came, saw and conquered - wow, what a gig! The resonance on this was the most enthusiastic of the whole weekend you placed the cornerstone to your success in Europe. - Bruder Cle of Rock Hard Magazine "
