BAND STORY

"NIGEL CLOTHIER Book of Days
 Leftarm Records Call it anglicised
 Americana with a pedal steel
 signature, bringing modern words and
 sounds into focus against a backdrop
 of traditional, narrative song writing.
 Deftly produced by Fran Ashcroft, the
 album rocks softly, nodding with
 affection towards those same folk and
 country influences that illuminate Neil
 Young and Bob Dylan's work. And yet
 it's from England! Track list: Book Of
 Days Hepburn's Run Away
 Season Of The Rose Come North
 Whisper In My Mouth Hanging Out
 It's A Secret Just Might
 Book Of Days Exceptin' A
 Beach Little English "
