

# Pierre Veniot

## BAND STORY

"Pierre is a French-Canadian born musician who plays the soprano and tenor saxophones, flutes, ethnic wind instruments, keyboards and various percussion. He composes and plays music in various styles, especially modern jazz and world music. For more than 30 years Pierre played for many groups all around Canada and Europe. His first solo album "Storias" is a collections of stories related to his profound belief that music is a "spiritual alchemy" not only a consumer product. His main influences are Miles Davis, Wayne Shorter, Sonny Rollins and John Coltrane, but he thinks that influences are a step to becoming yourself, your "original" self, a work in progress & "Music expresses that fusion, may it be nuclear or universal, is the only way to go!"
