

Ten Digit Army

BAND STORY

" I create all my own music using keyboards, beat machines, drum loops, various guitars and guitar synths, and an old fashioned microphone. I have spent most of my life making music in bands and on my own, and these latest tracks are a culmination of what I have been working on for the last year or so. I do have newer material but have not posted any of it yet. Please listen and leave me a comment or tell a friend about me. I really enjoy hearing your feedback and get very dissapointed when all I see is page views and no comments. If you leave a comment...I will do my best to extend you the same courtesy. Thanks...hope you enjoy. -TDA "
