

Volatil

BAND STORY

"Volatil is a progressive duo that brings you an emotion-influenced blend of electronic beats and acoustic guitars creating music in its purest form: Raw. Cynthia's sultry voice commands attention with a range that is both sweet and spicy. With the power of music she connects with the audience's true emotions at once. Add Rick's upbeat guitar rhythms and sequencing power to create a fusion of electro-acoustic pop, flamenco-rock, Latin-pop, and RnB. The possibilities are infinite! Cynthia loves being the center of attention since she was able to talk. She would call radio stations only so she could hear her voice on the air. Now she uses her range to play with the music and express her emotions through it. When Rick was 5, he imitated different guitarists. His passion for music came from The Beatles' song, Revolution, a song he learned to play by ear. Aside from music, his other passion is cancer research. He works at a well known cancer research institute, but when it comes to music, he's a true rocker! A few notable events Volatil has participated in include: Latin Grammy Viewing Party: Texas Chapter, Houston Dynamo pre-game concert, Univision Radio's Cinco de Mayo celebration, Latina Magazine's LatiNation Tour, Musica Fresca Festival, 90.1 KPFT's Fall Concert Series at the Miller Outdoor Theater, and FoxRox on KRIV Fox26.
