## BAND STORY

" MOSESKANE; THE BAND THAT ALMOST WASN'T.... writin by bob cole...Back in 1993 I was playin around in diffrent bands with my keyboard player TYLOR"tag"ECKLES when I got a phone call from my pop on my birthday,since my dad hadn't called me in about 10 years,of course I thought the worst right off the bat.So I asked him who in the family had died, I must have asked him the same question 10 times, he kept telling me no one had died,he was just calling to wish me a happy birthday, but I knew he had something else on his mind. then he asked me if I was sitting down, here it comes I told myself,I wasn't quite ready for what he told me. apairently I had a brother and a sister that I never knew I had..as you might guess it kind of floored me,it had been 35 years after all . well after biteing my toung and and trying like hell not to kuss out my pops, I asked him how I could get in touch with them, he told me that the family was going to be having a family reunion in the summer back in west virginia and they would like me to come back and meet them, it was the best trip I ever took.Come to find out my brother CHRIS was a musician also, he had been playing out on the east coast for alot of years in whole lot of diffrent groups too. We had alot in common.We got talkin about how awsome it would be to start our own band someday, well as the music gods would have it, in a strange twist of fate it happend,He called me one day to ask me if I needed a drummer,I guess he was having trouble at home,right away I asked him why he wasn't here yet,and how he knew that we were looking for a drummer at that time I still havn't figured out yet.So he packed up his rig and drove his \*\*\*\* out here as soon as he got here we
