BAND STORY

"SATHANAS was formed in 1988, releasing the cult demo "Ripping Evil", best known for the classic track "Jaws of Satan". Shortly after splitting up due to members losing interest in the band, Paul formed BATHYM, releasing the demo "Into Darkness" and the 7" EP "Demonic Force" on Thrash Records (France). Once again due to band members wanting to move in different musical directions, Paul decided to reform the dark forces of SATHANAS. With many lineup changes throughout the years, he has resurrected two demons from Hell, Bill Davidson on bass and Jim Strauss on drums. Jim has also played for the well known Black/Death Metal band ACHERON. Releasing albums on Blackmetal.com, Drakkar Productions, From Beyond Productions, Supernal Music, and Agonia Records, SATHANAS have decided to release their latest opus and best work to date through Pulverised Records. The new album "Entering The Diabolic Trinity" features nine bone crushing tracks of PURE HELL. May the Forces of Hell unleash the wrath of SATHANAS!!!! "
