BAND STORY

"My name is Patricia Lopez, I'm an independent recording artist, author, songwriter, singer, from Michigan, My books are called "Puzzles Of Life," "Mysteries Of Life's Sufferings, Breed Of Poison, Imaginations Of Wonders," a children's book of different stories, with my pen author Cheyene Lopez. This book will be coming out to the public very soon near you. Keep posted for details when you can buy one. I have had a hard road to go in my past sufferings, with many miracles from God, to overcome the past pains. I gave my life to raising up my daughter, and had many problems setting my career backward until 2003. I am also a writer, and a recording artist with many sites out publicly, as Trisha Blue Water. I truly would like to say that, I love the Lord Jesus Christ, with all my heart, and soul. He has opened doors in my life, where it seemed hopeless to most. I had people telling me it was to late to have a career, but I honestly can speak out, that Satan is a liar. God restores, and creates miracles for those who believe he will . When God wants his will to be done, it will not be stopped by anyone. The enemy robbed me of many fruitful years in the past, but my Savior Jesus, is going to give them back to me with wonderful works to do in his ministry. My life will be blessed through Gods, glory. I love singing in many different genres. I believe in love. I'm a romantic in heart. My husband Cheyene Lopez is also an awesome gifted writer, who loves God, and helps me write many blessed songs for God. I want to encourage people, to never give up on your dreams. God blesses all, through faith in all areas of life. Cheyene is a native of Alabama, and loves the country side. He writes
